OF ALL THE BEST

# CHRYSANTHEMUMS.

A PERFECT SPECIMEN OF AN INCURVED CHRYSANTHEMUM FOR EXHIBITION

E have much pleasure in announcing that we have been awarded the Gold and more Medals by the National Chrysanthemum Society than any other firm, never missing once since its existence.

(1)

C 1

# chrysanthemums at Swanley.

THE early snowdrop appeals to our affection as an earnest of the coming spring, but the Chrysauthemnm cheers ns amid the chill gloom of incoming winter, and remains with us almost until the flowers of the new year peep forth tinidly. It is no coy weakling, moreover. Generous and free, it lights up the humblest cottage garden as it makes gorgeous the most carefully-tended conservatory. Although a winter flower, it affords a wealth of colour unrivalled, and when we only believe in the sun through faith it preserves for us the bues of a glorious summer sunset. Japanese gardeners enlivated "the golden flower" with enthusiasm loug hefore we did, but we have beaten them at their own game. We had only forty varieties in 1832; now they are legion. "I do not think Japan has anything new to offer ns; we have ransacked it," said Mr. Cannell, the other day. We were in that wonderful hollow at Swanley, well named the "Home of Flowers." Perhaps nowhere else in the world can one feast one's eyes so well on that multiplicity of Protean forms and hewildering hues which this consin of the ox-eye daisy and corn-marigold has assumed under cultivation. Wild, tangled Mednsa heads, tiny, symmetrical button-like pompous, florets twisted and thread-like, loose and flowing ribbons, formal, close-set quills, broad, curled, and hyacinthine, hirsute and harbed, in colonr more diverse than their forms, bear witness to the astonishingly varied development which distinguishes the most eccentric of flowers. Here, too, are the small spidery blooms ladics delight to honour by wearing in their corsage. Among these, the Chrysanthemnm of the year is Mrs. R. Filkins, just over from Japan, with forked florets of a full

yellow. Another novelty is the delicate Centaurea, and here is Elkshorn with its strange florets resembling a stag's antlers. This spidery variety, in addition to its refined beauty, has the advantage of blooming profusely, and it lasts far into the winter. Of a different order are Kentish White, one of the coming flowers of next year; Madame Lucien Chaure, of a tender fawn colour; M. Panckoucke, a deep yellow; and J. Machar, a rich orange. An astonishing moh-bead of tangled threads is well named Good Gracious; and another remarkable flower is John Bunyan, of anemone form, with a great enshion centre. The Pride of Swanley, a seedling of this year, is a lovely white; Leviathan has the inner side of its florets a deep rose and the reverse a silvery white; Sir Walter Raleigh is silvery and lilac; Primrose League sulphur with a white centre; and Florence Davis white with a greenish centre. The Princess of Wales is an incurved Chinese variety. A noble flower is the great snowy mass Beauty of Exmouth, and a singular one is a hronze bloom with a Japanese name. One of Messrs. Cannells' trimphs here is an old favourite, the snperb deep-toned Edwin Molyneux, and the great manve bloom Etoile de Lyon, for both of which Chrysanthemma lovers are indebted to Mr. Cannell. What new snrprises are in store next year among the multitude of seedlings ranged in pots round the houses no one knows, but if the Blue Chrysanthemma ever becomes a fact it will probably make its first appearance at Swanley.—THE ECHO.

For Show Box, Thbes, &c., see pages 55 and 56.

For the best treatise, "How to grow the Chrysanthemum to perfection," see Molyneux's Book, sent post free, ls. 2d.

#### GARDENER'S MAGAZINE.

CHRYSANTHEMUM, MRS. R. FILKINS.—A charming new decorative variety of a bright golden yellow, with fringed ends to the segments. This is quite a new departure, and an elegant one. Award of Merit.

## \*\* CHRYSANTHEMUMS. \*\*

CANNELL & SONS' Stock is the largest and completest in existence, and in the finest possible condition; will certainly give satisfaction in all parts of the world. As a proof they append the following:—

M. C. Gabain, Havre, Frauce, November 9th, 1895. With the plants you have sent me, it will interest you to learn, at the exhibition held here, I was awarded the "Grand Prix d'Hoaneur"—i.e., the highest award over all other exhibitions—a valuable Sévres Vasc, presented by the French President, also two Gold and one Silver Medals. It was gratifying to receive the assurance from all competent judges that nothing finer than my display had ever been seen in Paris, or elsewhere. Amongst the most admired was your Sanflower.

Mr. J. Bakea, Wandin, Melboarne, Aastralia, October 12th, 1895.

Plants to hand; they came out very well. There is only one doubtful out of the whole lot. I beg to thank you.

SEND FOR A CATALOGUE.

SWANLEY, KENT.

# NEW CHRYSANTHEMUMS.

We were awarded the only Gold Medal

There are many we have seen and examined minutely—nearly every one that will be sent out—some are good, and perhaps half-a-dozen will become standard kinds.

The following wise remarks are evidently the result of long and close experience:—

for an Honorary Exhibit in 1895.

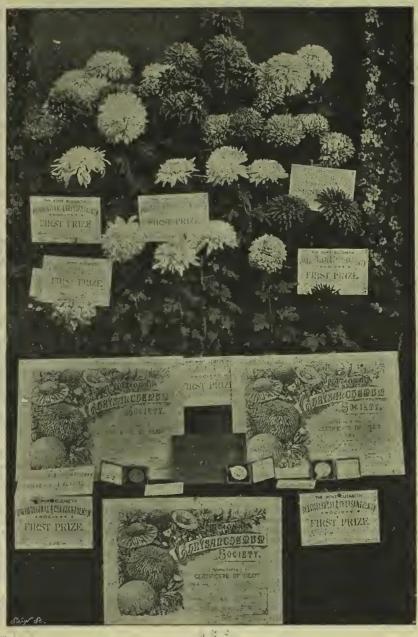

Mr. Molyneux, lecturing on Chrysanthemums at Beckenham, said—"He warned beginners as to their selection of varieties, especially new ones, and now firms recommending so many fresh kinds that we never hear of afterwards. All should be on the alort, choosing those who are careful in selection and in supplying meritorious varieties."

I have frequently heard Mr. Shea make the same remarks; novertheless, there is such a rivalry amongst the trade, that amateur raisers often ask as much as £50 for a new kind. This we feel is far too high, and must ultimately end like the Australian banks, so we are content with our own raising, purchasing others by the dozen or fifty from the trade, which we do perhaps more than any other firm. We send out what we feel certain will become favourites, such as E. Molyneux, Avalanche, and Sunflower, and we never grow them to an enormous size, but fairly, three flowers on a plant, and all must be short, thick-set habit, and bloom coming easily, if not they are thrown away. Several who have bought at high prices wish they could afford to adopt this plan.

The following will be found to be like our Sunflower, Molymeux, Duke of York, Lady Saunders, &c.—the more they are grown the better they will be liked. Our Kentish White is the most glorious incurved ivory white in existence.

(3)

The engraving below will speak unmistakably plain the importance of having cuttings or plants from Swanley, prepared by special culture. They are strong, full of vigour from their birth to the time they win the highest prizes all over the world.

# NEW CHRYSANTHEMUMS FOR 1896.

English Seedlings, raised and sent out by H. CANNELL & SONS.

WOOD'S PET.

PRIDE OF SWANLEY.

Electro kindly lent by the Editor of the "Journal of Horticulture."

(6)

- A. H. WOOD (Jap.) -A heautiful yellow sport from *Primrose League*, having a much hroader petal than its parent, and constitutionally stronger; has heen much admired. Crown buds. Plants only. 5s.
- C. J. WHITTINGTON (Jap.)—Producing immense bold flowers, hroad petals, very rich amaranth, with clear silvery reverse; a grand variety. Crown buds. 7s. 6d.
- COL. CURZON (Inc. Jap.)—A seedling from the well-known variety Louise, in every way identical with its parent except colour, which is of a heautiful self-pink shade; fine flowers. Late crown. Plants only. 5s.
- JOHN APLIN (Jap.)—A grand flower, and forming into a very refined Etoile de Lyon; colour rosy-pink; very hroad florets. Crown bud. 5s.
- MRS. A. H. WOOD (Jap.)—A lovely deep flower, the form of a well-grown Mme. Carnot, the lower half of the flower is white, suffused pink, the centre being pure white; very attractive on the exhibition board. Early terminal. 5s.
- SYDNEY B. LEVICK (Inc. Jap.)—Florets deeply grooved, and of a rich reddish crimson, reverse of petals golden huff; an acquisition. Terminal bud. 5s.
- T. L. TURK (Ref. Japanese)-Bold deep flowers, colonr pure golden huff. Crown hnd. 5s.
- WOOD'S PET (Jap.)—A lovely variety, the result of a cross between Swanley Yellow or Sunflower and Mons. Bernard, the formation of the flower is a fac-simile of Sunflower hut of a heautiful rosy-amaranth la colour, with a silvery reverse; each petal (as per engraving) having a graceful twist makes it most unique. Late crown. Plants only. 7s. 6d.

#### PRIDE OF SWANLEY.

#### Extract from THE JOURNAL OF HORTICULTURE.

All persons who take an interest in Chrysanthemums must have noticed the numerous white varieties that have figured among recent introductions. This fact, however, does not prevent an unusually good sort quickly coming to the front, as is the case with Pride of Swanley. Generally two or three years are required to develop the characteristics of seedling Chrysanthemums, but the variety under notice proved an exception to this otherwise invariable rule, and at the show of the National Chrysanthemum Society blooms were staged by Messrs. H. Cannell & Sons, Swanley, the raisers. When hrought before the Floral Committee a first-class certificate was awarded for this variety. It is a very large Japanese, with long drooping white florets of medium width, forming a deep glohnlar flower. The illustration has been reduced from a photograph of a bloom kindly supplied us by Messrs. H. Cannell & Sons. Pride of Swanley is one of the best white Chrysanthemums of the season, and has a future before it. Late crown. 7s. 6d.

#### SEE THE GREAT SUCCESS OF OUR PLANTS SENT TO AFRICA.

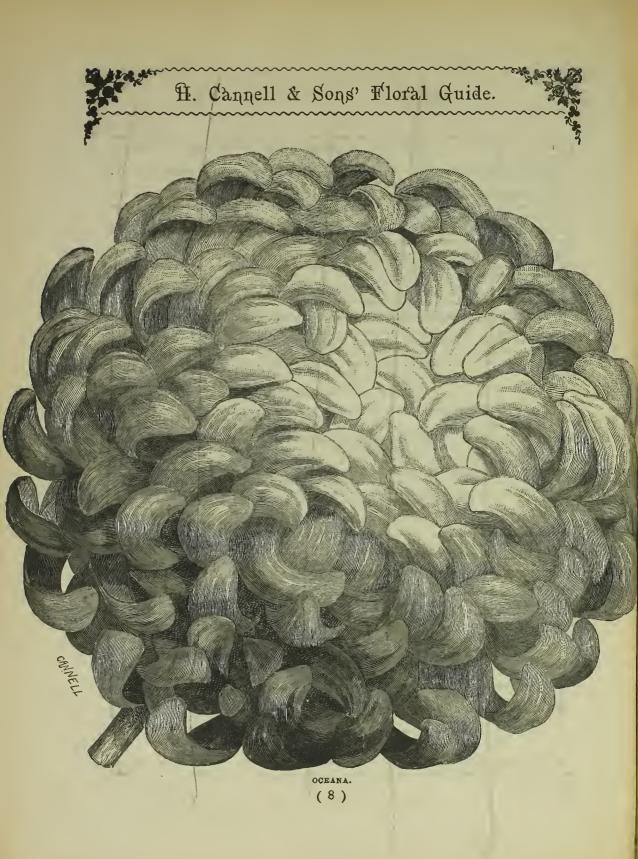

A. T. Houghton, Esq., a gentleman well known at Port Elizaheth, Sonth Africa, who is one of the best growers and prizetakers at the Annual Show, held there for years, is lond in declaring this great success has been achieved through the splendid plants and varieties we have supplied him with so long. (See page 4.)

## NEW INCURVED VARIETY.

MRS. F. HEPPER—This will undoubtedly be found a grand addition to this class, forming as it does into beautiful and perfect shaped flowers of the purest white; splendid habit. Crown or terminal. 7s. 6d,

## NEW JAPANESE ANEMONE.

E. G. HAZELDENE (Hazeldene)—A beautiful sport from Marguerite Villageoise, and of which it is an exact counterpart excepting in colonr, heing of a pure citron-yellow; fine. Terminal hnds. 3s. 6d.

## NEW VARIETIES FROM AUSTRALIA, 1896.

AUSTRALIE (Jap.)—Producing massive, well-built flowers, and we quite expect during next season to see flowers of this variety beating the record in size of blooms. They come of enormous dimensions and of a light rosy amaranth, with a soft silvery reverse. It will soon be seen on all exhibition stands. Strike late. Crown bud. 5s.

G. CARVELL (Jap.)—Flesh colour, of a most pleasing sbade; the blooms are large and fine; very distinct; dwarf hubit. Crown buds. Plants only 5s.

OCEANA (Inc. Jap.) - One of the best novelties of the year; very broad incurving florets; beautiful large flowers of a rich golden yellow. We exhibited this variety, and it obtained four First-Class Certificates in one week. N.C.S., R.H.S., Sheffield and Birmingham. Late crown bnd. 7s. 6d.

PRIDE OF MADFORD (Jap.)—A splendid variety; broad florets, incurving towards the centre; rich rosy amaranth, reverse shaded silver; fine flowers. First-Class Certificate. Strike enttings early, and secure crown bud. 2s. 6d.

# OTHER NEW VARIETIES FROM VARIOUS SOURCES FOR 1896.

ADELAIDE RUSSELL (Dec.)—A distinct sport from Mon. Wm. Holmes, the colour being a beautiful golden-bronze; professe bloomer, very useful for market and decorative purposes; good habit. Plants, 1s. 6d.

ALICE M. LOVE (Inc. Jap.)—Long-pointed, lovely incurving petals of the purest white. First-Class Certificate. 5s.

AMY SHEA (Jap.)—Large, broad reflexed petals; colour ruby-red, with a golden reverse; very distinct. 5s.

ANNIE TWEED (Single)—Dark velvety maroon, purely single, dwarf branching habit; a good acquisition to the class. 1s. 6d.

A. PAYNE (Inc. Jap.)—Massive flower, with broad incurving petals of good substance, inside of petals lovely shade of rose with silvery reverse. 5s.

ARONA—Seedling from Vivian Morel. The blooms are large, of a rich yellow, shaded with bronze; the inside of the flore's flushed and brightened with carmine. It may be best described as an improved Col. W. B. Smith, but the florets are of greater substance, and the bloom is a much better keeper. One of the best introductions of the season. Comes good from any bnd. Two Certificates, R.H.S. and N.C.S. Plants only, in Spring, 7s. 6d.

BARBARA FORBES—White, equal to the Queen of the Earlies, but the florets are of different form, and the blooms are somewhat larger; a lovely variety. Plants only, 5s.

BEAUTY OF TRURO (Jap.)—A yellow ground sport from the hairy variety Louis Boehmer, deeply flushed purple-bronze. 3s. 6d.

BELLEM (Inc. Jap.)—Bright pink, incurving petals of fine substance; a massive exhibition flower; one of the best pinks ever raised. Terminal buds. First-Class Certificate. 5s.

BONNIE DUNDEE (Inc.)—Orange inside of petals, lined and shaded rosy-bronze without, the back of petals edged yellow; a splendid globular flower, fine substance; the brightest shade of orange in the section; good habit. Terminal buds. First-Class Certificate, N.C.S. and R.H S 7s. 6u.

CECIL C. PRATT (Jap.)—Nunkeen yellow, lined and tinted soft pink; long twisted petals hooked at points; grand exhibition flower; strong robust grower. Crown buds. 5s.

C. E. JEFFCOCK (Jap.)—Very refined; long petals incurving at the tips; colonr rich terra cotta, suffused with crimeon buff reverse. 5s.

**COMMANDANT SCHNERDER** (Scented Ref.)—Small reflexed flower, having the same sweet scent as *Progne*; robust grower, free flowering; light purple amaranth. 1s.

C. W. RICHARDSON (Jap.)—One of the largest and most beautiful varieties yet introduced; long drooping and twisting petals, twisting and intermingling. 5s.

DOLLY (Pom.)—A very compact and beautiful variety, useful for exhibition or decoration; pale canary-yellow. 1s.

(9)

DOROTHY GIBSON (Ref)—A deep well-formed flower of the richest golden-yellow; hand-some; the best addition made to this class for years; fine sturdy habit. Crown buds. First Class Certificate at N.C.S. and R.H.S. 3s. 6d.

DOROTHY SEWARD (Ref. Jap )—Very large, full flower, and of great depth; bright terracotta red, keeping its colour well to the last. Crown bnd. 7s 6d.

DR. BOND (Ref. Jap.)—A large reflexed flower; a considerable depth; colour bright cauary yellow. 5s.

DUCHESS OF FIFE (Inc.)—An enormous flower of great depth and of good substance, beautifully shaded petals of the purest white; a back row flower, and a good companion to Chas. H. Curtis. Late crown buds 6s.

EDITH TABOR (Jap.) - Large and handsome; broad drooping florets curled at tips; very flue lemon yellow, quite distinct; strong vigorous habit, medium height, and easy to grow. First-Class Certificates awarded. 7s. 6d.

EMILY SILSBURY (Jap.)—A rival to Malle. Therese Ray, but much easier to grow, and a flower of more substance; pure white, with long drooping and gracefully curling petals; an invaluable exhibition variety, and good for market purpose; good on any hud. First-Class Certificate. 6s.

EUCHARIS (Single)—Pure white as Elaine, as free as a Marguerite, and of exquisite shape; the finest yet introduced. 1s. 6d.

EXMOUTH YELLOW (Jap.)—Full and deep, outer petals drooping in a charming manner; pure white, delicately shaded clear pink; good habit, casy doer, highly recommended. 5s.

FRANK ASHMAN (Inc. Jap.)—Magnificent rich golden yellow, shaded and tinted bronze red; splendid form and substance; the broad petals beautifully incurving, and forming a perfect ball; terminal buds. 5s.

GENERAL ROBERTS (Jap.) - Red, shaded carmine; enormons flowers, the lower florets of which are tubulated and spatulate, gracefully intermingling; on the crown of flower the florets are broad and flat; one of the largest; early terminal buds. 7s. 6d.

GENERAL ROCKE (Jap)—Deep amaranth, silvery reverse. There are many of the amaranth shade of colour, but none so pretty and distinct as this; of easy culture. 5s.

GEORGE HAIGH (Inc.)—A distinct sport from Robert Petfield, and closely resembles that variety in form and habit, but the colour is a lovely carmine-rose, shaded golden bronze; a splendid exhibition flower, will take a foremost position in its class; crown buds. First-Class Certificate at N.C.S. 7s. 6d.

G. LANGDON (Jap.)—Large, long and broad petals, slightly curling at the tips; colour levely canary yellow; a flower of good substance. 5s.

HAROLD WELLS (Inc.)—A sport from Sir T. Lawrence, lovely creamy-yellow, broader petals than Golden Empress of India. 5s.

HELEN OWEN (Jap.)—Orange-yellow, shaded and tinted apricot; very long florets, twisting and intermingling, forming a massive flower; very distinct and beautiful; crown buds. 5s.

HERBERT J. CUTBUSH (Jap.)—A unique flower, with long petals of medium width; colour deep red, heavily striped yellow; nseful exhibition variety. 5s.

H. T. WOODERSON (Jap.) — Massive flower, with long broad petals of thick leathery substance; style of Wm. Tricker, only much larger; colour soft rose, silvery-white reverse. 5s.

H. WOODMAN 'Jap )—Another of the hest, with long twisting and enrling petals, incurving at the ends; very large and deep flower; colour rich bronze, beautifully overlaid with red. 7s. 6d.

JAS. BIDENCOPE (Jap)—Rosy amaranth, silvery reverse; hroad florets, long and slightly twisted; large and handsome; terminal buds. 5s.

J. LYNE, JUNR. (Inc.)—An exhibition bloom of perfect form, and petals of the truest type; colonr a pleasing shade of light golden-bronze. ŏs.

JOHN SEWARD (Jap )—An immense flower, 9 inches across; bright canary yellow; constant easy grower 7s. 6d.

J. PEARSE (Inc.)—Large flower of perfect shape; a distinct shade of light rose; fine exhibition variety. 5s.

KATE WILLIAMS (Single)—A lovely rich golden-yellow, perfect in form and size; a grand bloom for exhibition; sweet-scented. First-Class Certificate. 3s. 6d.

KHAMA (Jap.)—Carmine-red, golden-bronze reverse; long petals of medium width, turning over and showing the reverse; full deep flower; dwarf and vigorous habit; crown buds. 7s. 6d.

KING OF PLUMES (Dec.)—Handsome thread-like florets prettily cut and notched, colour rich golden-yellow; very distinct. Award of Merit, R.H.S. Plants, Is, 6d.; cuttings, Is.

LADY BYRON (Jap.)—Pure ivery-white, shaded green in centro until fully expanded; an exceedingly handsome variety. 7s. 6d.

[LADY ESTHER SMITH (Inc. Jap.)—Pure ivory white, broad incurving florets, of good substance, grand and massive blooms; will make one of the best whites, either in October or November, an excellent keeper; sturdy habit. Awarded Certificates. 5s.

LADY KENNAWAY (Oct. Flow.)—Beautiful pink, somewhat similar to the colour seen in Baroness Rothschild rose; blooms are deep, and florets of medium width. 5s.

LADY RIDGWAY (Inc. Jap.)—Lovely salmon-buff, rosy red inside of petals; large deep solid flower, massive build, beautifully incurving, petals tipped gold; splendid exhibition variety; terminal buds. 5s.

LAGO MAGGIORE (Jap.)—This is the grandest and richest yellow flower yet introduced. In style the bloom resembles Sunflower, but in size and substance an immense advance upon that well-known variety. All who have seen this glorious flower pronounce it to be the most difficultion of this rolour yet brought into commerce; a most telling exhibition flower. First-Class Certificate. 10s. 6d.

MAGGIE SHEA (Ref. Jap.)—A very large flower, with broad petals slightly eurling at the tips; colour rich clear yellow, with a light primrose reverse; a valuable exhibition variety. 7s. 6d.

MARJORIE KINDER (Inc. Jap.) -Large, broad leathery incurving patals; colour rich yellow, lighter reverse. 5s.

MATTHEW HODGSON (Jap.)—Bright crimson-red; a beautiful distinct and high-class flower, of medium size; good grower; very promising. 5s.

MILANO (Jap.)—A very large reflexed flower, with broad petals of great length; colour cherry-carmine with bright bronze reverse. 5s.

MISS CLARA WALKER (Jap.)—Beautifully chaste and rofined, with extremely long tubular petala; large spreading form; colour purest white. 5s.

MISS FLORENCE LUNN (Ref. Jap.)—A true reflexed flower, and probably the most refined and distinct of its type; an important addition to this limited class; light amaranth; full deep flower. 3s. 6d.

MISS L. J MATTES (Jap.)—Very handsome flowers, petals very long, creet, and tubular; inner surface of florets rich rosy-bronze, reverse being paler; habit dwarf; of easy culture. 5s.

MISS MARY GODFREY—Blooms are very deep and of beautiful form, of a lovely silvery-pink, edges being several shades darker; a distinct and lovely variety; habit strong and robust. 7s. 6d.

MISS MURIEL GOSCHEN (Jap.)—Large dense flower, with long carling and drooping refined petals, building up a bloom of good substance and depth; colour soft yellow. 5s.

MISS PHYLLIS FOWLER (Inc.)—Large perfect flower of exquisite form and great depth, petals beautifully incurving, and pointed in the *Princess* style; colour primrose-yellow; late crown buds; a companion to *Chas. H. Curtis.* 6s.

MR. A. G. HUBBUCK—A magnificent flower with innumerable reflexed petals; colour bright shade of chestnut-red, with gold reverse; very distinct and telling colour. This is a bloom of large proportions, and will be invaluable to all exhibitions.

5s.

MR. B. HOOKE (Ref.) -A good addition to this class; beautiful chestnut-red, florets tipped gold; a lovely colour and a decided acquisition; good habit; crown hads. 3s. 6d.

MR. G. HOLLINGSWORTH (Jap) - A very distinct flower of medium size, long flat petals notebed at the tips; colour soft shade of primrose-yellow. 5s.

MR. P. PURNELL (Inc. Jap.)—Charming compact flower, with shaving-like petals of much substance, pleasingly curling, and forming a most unique bloom; a decided acquisition to this section; colour inside violet-rose with a silvery white reverse. 5s.

MR. W. LAYCOCK (Jap.)—A charming variety of great merit; large and of fine form, florets long; very pale yellow but not of a creamy-white; plants only. 7s. 6d.

MRS. A. E. STUBBS (Single) — The most perfect form of a pure white exhibition single variety yet introduced; a very chaste flower, invaluable for decorative purposes. Two First-Class Certificates. 3s. 6d.

MRS. ARMISTEAD (Jap.)—White, striped and flushed rosy-pink; long narrow florets; full exhibition flower; a charming variety, having a delicate perfinme of violets. Crown bud. 6s.

MRS. CHAS. BLICK (Jap.)—A lovely pure white of fine habit; graceful long florets; a grand acquisition. Awarded several Certificates. Plants ready in March. 5s.

MRS. C. ORCHARD (Inc. Jap.)—Another distinct flower with broad incurving petals, slightly hoisting; colour bright sulphur yellow. 5s.

MRS. COTESWORTH BOND (Ref. Jap.)—A distinct flower of large proportions; colonr soft pink, shaded white; a very pleasing variety. 5s.

MRS. E. E. COOKSON (Jap.)—Deep crimson, finished yellow on reverse of petal; florets very long, flat, and ercet; makes a full deep flower; very large; good habit; fine grower. 5s.

MRS. G. CARPENTER (Jap.)—A lovely variety of a rosy-manve colour; the florets twist and intermingle, showing a silvery reverse; very fine. Crown bnd. 5s.

MRS. G. GOVER (Jap.)—Large, with long and drooping petals slightly enrling at the tips; colour rich crimson, bronze reverse; fine exhibition bloom. 5s.

MRS. G. H. SMART (Inc. Jap.)—Large flower of the truest form; colour golden buff, inside of petals suffused red. 5s.

MRS. HARRY CHIESMAN (Inc. Jap.)—Chaste flower, with long and broad inenrying petals, building up a flower of large proportions; colour pure white, slightly tinted green. 5s.

MRS. HERMANN KLOSS (Jap.)—As large as Etoile de Lyon, with similar broad, flat florets and high build; colour dark orauge, flushed chestnut-red; should be grown strong and taken on second crown, as it is apt to come coarse. 6s.

MRS. HUME-LONG (Jap.)—An immense bloom, yet free from coarseness; florets very long, recurving and twisting from the centre in a most even manner; deep rose, lighter reverse; distinct. Plants only. 7s. 6d.

MRS. H. WEEKS (Jap.) - Beantiful pearly-white, shaded light pink; undoubtedly the largest as well as the handsomest flower yet raised. 10s. 6d.

MRS. JOHN FORBES (Oct. Flow.)—White; a lovely and most valuable variety. Plants only. 5s.

MRS. JOHN SHRIMPTON (Jap.)—Perfectly distinct from any other variety; very constant, every flower coming good; golden huff, shaded and striped crimson-red; very telling colonr. Crown bnd. 7s, 6d,

MRS. PINKNEY (Inc. Jap )—Massive flowers, petals very broad and long, rich deep yellow, best described as a great improvement npou *The Tribune*; good habit; strong grower. Late crown bnd. 5s.

MRS. RICHARD JONES (Jap.)—A very large spreading flower, with long reflexed petals incurving at the tips; colour of the purest white. This is one of the most promising white flowers of the season, and all growers should seeme it. 5s.

OLGA TEICHMAN (Jap.)—Novel, reflexed; pointed pctals of medium width; colour rosymanvc; a very distinct shade. 5s.

OLIVE OCLEE (Inc. Jap.)—One of the best incurved flowers of the truest form; large and deep flower, with broad petals of great substance; colour rich bronze, shaded yellow. Certificated at the R.H.S. and N.C.S. 6s.

PRIDE OF EXMOUTH—Will take a high place on the exhibition stand; blooms full and deep; colour from early buds pure white later buds white, delicately shaded clear pink; good habit; of easy culture; one of the best. Plants only. 7s. 6d.

PRIDE OF MAIDENHEAD (Ref. Jap.)—A magnificent flower; ivory white with lemon centre, long spreading florets of medium width; of great depth; grand exhibition variety. Crown bads. 7s. 6d.

PRINCESS ENA (Hirsute)—This splendid novelty originated at the Royal Gardens, Windsor, and is a sport from Hairy Wonder; the Princess has all the good qualities of the parent, and a great advance, owing to its more pleasing colour—clear warm rosy pink; a gland acquisitiou. Award of Merit. 7s. 6d.

PRINCESS MAUD (Inc. Jap.)—White, shaded pink; gracefully incurving florets; very solid and forming a splendid flower; strong and healthy. Crown or terminals. 7s. 6d.

QUEEN OF THE EARLIES (Oct. Flow.)—Specially recommended for decorative purposes or cut flowers for market. A capital keeper and of good substance; of the purest white; an advance. Plants only. 3s. 6d.

REV. S. G. SCOTT (Jap.)—Large flower, with very long petals of medium width, carling and incurving at the tips, making a bloom of large size; colour inside of petals claret-red, with a very deep buff reverse. 5s.

ROBIN ADAIR (Jap. Anem.)—Large fine-shaped flower; grand florets, blush white, flushed lilac; centre florets lilac pink, shaded yellow. F.C.C. at N.C.S. and R.H.S. 3s. 6d.

SIR T. LAWRENCE (Inc. Jap.)—Pure white, broad petals; a grand exhibition flower, good on either bud. 2s.

TAM O' SHANTER (Jap. Ancm.)—A lovely rosy lilac, with lighter shadings; gnard petals, fluted and twisted, the high cushion being edged yellow; good habit. 3s. 6d.

VICAR OF EXMOUTH (Inc. Jap.)—Very broad florets; rich crimson amaranth, silvery, reverse; habit stiff and sturdy; handsome and distinct. Plants only. 5s.

WALTER OWEN (Jap.)—Reddish crimson, bronze reverse; broad florets, slightly toothed; large full flower; a telling colour; fine habit. Crown or terminals. 7s. 6d.

W. SLOGROVE (Inc. Jap.)—Said to be the best deep yellow up to date. F.C.C. at R.H.S. and N.C.S. Of casy culture. 6s.

W. WRIGHT (Ref. Jap.)—An enormous flower, with long petals of medium width, making a flower of large size; colour bright pink, tinted primrose. 7s. 6d.

YELLOW ELSIE (Ref. Dec)—A true sport from the pretty primrose coloured variety named Elsie. This is equally as useful, only of a decided yellow; very free. 2s. 6d.

YELLOW GEM (Pom.)—A splendid little flower, with pretty fimbriated flowers, deep yellow; a lovely addition to this class; profuse bloomer, dwarf habit. F.C.C. at R.H.S. and N.C.S. 1s. 6d.

# NEW CHRYSANTHEMUMS OF 1895.

Raised and sent out by H. CANNELL & SONS.

EDMUND BEVAN—Of our own raising. We have much pleasure in introducing a variety in the dark-coloured class, which will certainly prove out of the most distinct and attractive. Of true Japanese form, very large perfectly formed flowers, and in colouring belongs to the E. Molyneux class. The petals are long and graceful, beautifully curving, and naturally arranged, showing the colours (gold-bronze and almost a blood-chestnut—the brightest we have yet seen) off to a very appreciative advantage. It will certainly be found absolutely necessary for the exhibition stand; habit dwarf and free. Early terminals. 2s.

JOHN MACHAR—A seedling of our own raising. A splendid incurved Japanese of the finest form, and a decided improvement in colour, and also in the immense bold build of flowers of W. H. Lincoln. Of a brilliant deep yellow, being equally as attractive as the well-known Jardin des Plantes, and we have every confidence of putting this forward as likely to be the most popular variety amongst the yellows; possesses a fine habit, and every flower comes in exhibition form. Awarded a First-Class Certificate. 2s.

KENTISH WHITE—A seedling of our own raising. If one point is more necessary than another in respect to improving the Queen of the Autumn, it is certainly that of getting them dwarfer. So far we have succeeded, and we feel sure on that account it will be much appreciated. Many are the admirers of Mrs. G. Rundle, and we have no hesitation in predicting that this variety, as an incurved Japanese, producing large well-formed flowers of the purest white, and of a splendid dwarf bushy habit, every stem being well furnished with handsome green foliage up to the flowers, and scarcely ever above two feet in height, will, in a very short space of time, become equally as well-known and cultivated as the old favourite meutioned above. For grouping, market, and general decorative purposes it cannot fail to be a great acquisition. A glance at the engraving takeu from a photograph will convey a correct idea of the value of this splendid introduction. 2s. Special price per 100.

CANNELLS' KENTISH WHITE.

MRS. NORRIS (Jap.)—Of our own raising. A variety possessing several necessary and useful advantages—and that is it is of easy culture, producing large flowers fit for exhibition, and owing to its freeness of flowering, it is equally as well adapted for the decoration of the conservatory, corridors, or halls. White agreeably tinted pink; it cannot fail to become useful. 1s. 6d.

WM. SPARKS (Inc. Jap.)—Large bold flowers; broad well-developed petals, incurving to a full centre and forming into grand exhibition blooms; ground colour deep magenta, reverse of petals of a distinct and pleasing shade of rose, with a silvery shading; dwarf, vigorous habit. 2x.

# NEW VARIETIES DIRECT FROM JAPAN, 1895.

Sent out and highly recommended by H. CANNELL & SONS.

KUMO-NO UE, or WHITE GOOD GRACIOUS—We obtained this variety direct from Japan. Those who have admired Good Gracious, with its delicate peach-pink colour, together with its distinct and attractive formation of flower, will, we feel sure, accord this also a welcome, being of the purest white, and large bold flowers, the long always twisted florets being even more spirally inclined than the variety mentioned above, every bloom coming to perfection. Good dwarf habit, 2s.

white good gracious ( 15 )

USU-GESHO (Inc. Jap.)—A most captivating variety, being perfectly distinct, and producing large bold flowers of a refined character, the ground colour being of a light lilae-pink, and reverse of broad well-incurving petals of a lovely pink-tinted silvery shade. Several plants of this, when grouped together, form a most attractive feature; of good growth. 3 to 4 ft. high. Early terminals. 2s.

SHINK-A-GARIBI—We are putting this variety forward, knowing that it will be found a most useful free-flowering kind for market or cutting purposes, it being almost the same fashionable colour, which has been so much in request, as Col W. B. Smith, but of a much stronger constitution, and more lasting properties in the flowers. This alone will cause it to be generally grown where a quantity of bloom is required of a golden-bronze and terra-cotta colour. 1s.

## NEW SINGLE CHRYSANTHEMUMS, 1895.

MISS ANNIE HOLDEN (YELLOW MARY ANDERSON)—The much admired hinsh-white variety sent out by us several years ago. It being so beautiful and perfect in formation, left nothing to be desired, and all lovers of this class speak and write of it as being the very best of its kind. The above new variety we now have the pleasure of introducing is a sport, and in every way identical, except in colour, which is of a lovely canary-yellow slightly tinged buff, and it will thus readily be concluded what a gem this will prove to be to all who delight in home decoration. Awarded several First-Class Certificates. 1s. 6d.

THE ECHO—The variety named Miss Rose, sent out by us several years ago, is constantly heing mentioned in the gardening papers as a most useful and necessary kind for the conservatory, owing to it forming into such beautifully shaped specimens, and well covered with flowers. The novelty we now offer is equally as effective, but producing flowers of a distinct shade of terra cotta; medium-size flowers; dwarf, bushy habit. 1s.

## NEW CHRYSANTHEMUMS OF 1895-6.

#### TIME PROVES ALL THINGS.

It has proved, without hardly a single exception, that all the new things we have had the pleasure of sending out during the last twenty-five years have become standard varieties and general favourites everywhere, and we feel assured the following varieties we are now distributing, and described below for the first time, will carry our reputation to a still higher degree. It is remark able that all ours develop more and more with time, and ultimately become acquisitions both for exhibition and general decorative purposes. These are of splendid growth, dwarf habited, like our Avalanche and Col. W. B. Smith, freely producing good show flowers of easy culture, and will become equally as popular as one E. Molyneux and Sunflower, varieties that are well known and valued throughout the world. It should also be further remembered that our pure country air and best adapted appliance: for producing the finest possible plants to grow on are of immense advantage to those who wish and intend to succeed.

## NOVELTIES FROM VARIOUS SOURCES, 1895.

BRILLIANT (Owen) (Jap. Dec.)—The brightest crimson ever raised; broad spreading florets, brilliant rich crimson, with a slightly paler reverse; the blooms measure from 5½ inches. Award of Merit, R.H.S. Crown buds. 2s.

BRONZE BRIDE—Early-flowering variety; a rosy-bronze sport from Blushing Bride; a welcome addition. 1s.

CALEDONIA (Jap. Anem.)—A large flower with white guard florets, incurved at the tips, the full centre is lilac-mauve, shaded yellow. First-Class Certificate, N.C.S. Crown huds. 1s. 6d.

CHARLES H. CURTIS—Grand new incurved. Deep yellow; extra large; well incurved, and of good depth; of medium height. First-Class Certificate. 2s. 6d.

COL. T. C. BOURNE (Jap. Ref.)—A blood-red seedling from Mrs. F. Jameson; very attractive, large size; the florets are long and stout, slightly twisted and drooping, golden reverse. First-Class Certificate, N.C.S. Crown hads. 2s.

DUCHESS OF YORK—Colour soft light yellow; massive and graceful in form, the florets long and prettily cut; a flower of a true Japanese character, 5 ft. high; buds secured near Angust 20th; splendid novelty. Several First-Class Certificates. 2s.

DUCHESS OF YORK'S FAVOURITE (Jap.)—Old gold, with a blnish shade of terra-cotta, broad flat petals, large grand exhibition variety. 1s. 6d.

EARLSWOOD RIVAL—Purest white, seedling from Mrs. A. Hardy; a much better grower, but not quite so hardy; will become a great favourite. 1s.

EDELWEISS (Jap.)—A grand pure white; exquisite form, broad petals; a glorious bloom. 1s.

E. FORGEOT—Awarded a large Silver Medal, French National Horticultural Society held in Paris; flowers purple-amaranth of the highest colouring, reverse of petals silvery; possesses good lasting qualities. 1s. 6d.

ENID DOBREE (Jap.)—Delicate red-bronze, reverse pale yellow; very deep, fine flower; good for exhibition. 1s.

ERNEST FIERENS (Jap. Ref.)—Pure white; fine variety, with long irregular florets; a good variety to resist damp. 5 to 6 ft. Crown buds. 1s. 6d.

ETHEL AMSDEN (Jap.)—Pure pea-green; a sport from V. Morel; a startling novelty. 1s. EVA KNOWLES (Jap.)—Of a reddish-apricot colour, with a golden reverse; the florets are long, spreading, and slightly drooping. Awarded three First-Class Certificates. 6 ft. Terminal buds. 2s.

FRANK WELLS (Jap.)—White, lined violet-rose, ereamy centre; tremendons flower; very dwarf habit; good for exhibition. 1s.

GOLD DUST—Golden yellow; very plumy; finely incurved, and as large as a good Enfant; eolonr very brilliant. Received Honourable Mention at Chicago. Height,  $3\frac{1}{2}$  ft.; stems stiff, earrying a profusion of light green foliage. 2s.; euttings, 1s.

GRAPHIC (Inc. Jap.)—Enormous flower, with broad inenrving petals slightly twisted; inside of petals rosy-mauve, outside of a silvery shade; strong grower. 6 ft. Terminal buds. 1s.

HAIRY WONDER, syn. RYŪMEN—Certainly the most distinct hirsute variety yet introduced; long tubular florets, opening at tips, which completely incurve towards centre, thus showing the under part thickly covered with hair, of a pleasing shade of soft terra-cotta, the opening of florets tinted light amber; vigorous growth; useful for exhibition. First-Class Certificate. 1s. 6d.

HALLOW E'EN—Grand incurve; height of plant 4 ft., very stiff stems, elegant foliage. Was awarded 25 dol. premium as best "any other colour" at Indianapolis. 3s.

H. W. RIEMAN—Yellow; between W. II. Lincoln and Madeira; deep golden yellow, very bright, massive in build—as deep as wide, stems very stiff; height 4 ft.; a grand yellow. Received 25 dol. preminm at Indianapolis as best yellow. 2s. 6d.

JAMES BEGGS (Jap.) — Rosy-mauve with silvery reverse; an enormous size, very broad spreading florets; splendid exhibition variety. 6 ft. Terminal buds. 2s.

JOHN LIGHTFOOT (Jap. Ref.) — Blush white, edged pink; a large fine full form; drooping florets. Award of Merit, R.H.S. Crown buds. 2s.

LADY RANDOLPH—Reflexed Japanese. Florets fine substance; colonr amaranth crimson, silvery reverse; very dwarf; crown buds. 2s.

MDME. CARNOT (Jap.)—A grand flower, with very long petals, pure white; can well be termed a white Etoile de Lyon. F.C.C. N.C.S. Plants in Spring, 1s.; euttings, 8d. Now.

MDME. HENRIETTE THOMPSON (Jap.)—Bronzy-red; will make a good bold flower. 1s. 6d.

MDME. SARLIN (Jap.)—Very similar to E. Molyneux in colour, with broader florets; a grand flower. 1s. 6d.

MDME. VESSIERE (Jap.)—A beantiful golden yellow, deep flower, dwarf habit, 1s. 6d.

MILKY WHITE (Jap. Ref.)—A very full flower of an opaque white, with spreading florets; a strong healthy habit. Crown bads. 2s.

MISS BRONNA FOSTER (Inc. Jap.)—The outer surface of the flower is deep rose, a beautiful and telling colour; a large deep bloom. 2s. 6d.

MISS CONWAY—New early decorative variety. Small Japanese, very handsome as a decorative sort. Graceful formation of *Mdlle. Lacroix*, and its long florets are a lovely shade of soft yellow, white tips; dwarf and free. 1s. 6d.

MISS DULCIE SCHRETER—Drooping flower, with long flat petals; colour golden yellow, distinctly edged crimson; large and striking; crown buds. Award of Merit. 2s. 6d.

MISS ELSIE TEICHMANN—A very large incurved Japanese of great depth; pearly white; florets curl with regularity and grace; of great beauty; dwarf, sturdy habit. 3s.

MISS GOSCHEN—Yellow; a very fine type for show purposes; flowers large; colour clear and rich; habit study; medium height. First-Class Certificate. 2s.

MISS LOUISE D. BLACK—Reddish orange; height, 4 ft.; something like the variety Robert Owen. Received Certificate at Indianapolis, and Honourable Meution at Chicago. 2s. 6d.

MDME. WALTHER—A Japanese variety; the onter florets are quilled at the hase, the tuhe expanding into a flat ohlong limh; the outer part of tuhe is silvery, reverse silvery flushed with brown; tips sulphur-yellow, the inner ones partly incurved and rosy-mauve in colour; a most curious-shaped flower. Crown buds. 1s. 6d.

The "Gardener's Chronicle" says of MDME. WALTHER:-

A specimen sent us hy Messrs. Cannell showed there were at least five different forms of florets, with numerous intermediate ones. The general form was that of a raised enshion or disc, surrounded with numerous rows of ray-florets of different shapes. The whole flower had the shape of a Turk's-head broom.

MISS M. M. JOHNSON—Was Certificated hoth in Cinti and Chicago on the 20th of October. The shade of yellow is that of W. H. Lincoln. 2s. 6d.

MISS RITA SCHREETER (Jap.)—Immense, and best described as a glorified Belle Paule; habit good, and of easy culture. 2s. 6d.

MONS MEG (Jap.)—A splendid Japanese crimson-red, interlacing florets, and gold reverse, the blooms measuring  $6\frac{1}{2}$  in. diameter; a grand variety for either decoration or exhibition. First-Class Certificate. Crown or terminal buds. 2s.

MR. CHARLES COX—Clear light yellow, good size, and remarkahly deep; florets flat and almost straight, furnishing globular outline; valuable as a show sort. Crown buds of easy culture. First-Class Certificate. 2s.

MR. FLETCHER—Dark rose with yellow tints. The flower is large and full, recurved in shape and handsome; dwarf and good. 2s.

MR. R. B. MARTIN—This is a large bloom, with very long drooping florets, and valuable for show purposes; colour yellow, heavily shaded dark brown and hronze. Crown bud. 2s.

MRS. BASSETT (Jap. Anem.)—Rosy-lilae gnard florets, lined white, high centre of a rose shade, tipped yellow; a grand show flower. Terminal huds. 1s. 6d.

MRS. C. E. SHEA—Colour soft creamy white; florets of great length, gracefully drooping and interlaced, forming a most elegant and refined flower of immense size. 3s. 6d.

MRS. E. S. TRAFFORD (Jap.)—A beautiful sport from Wm. Tricker; ground colour yellow, the piuk colour changing to a rosy-erimsou; one of the finest novelties. 2s. 6d.

MRS. GEO. WEST-In the way of Mrs. G. W. Childs, but superior in form and colour; fine.

MRS. H. T. DREWETT—Handsome Japanese flower, creamy white; flowers of good width, especially deep and solid; reflexed, florets loug. 4 ft. Crown buds. 2s.

MRS. J. R. TAYLOR-White flower of the curly petalled Golden Dragon form; bloom large, full, and early; striking. 2s.

MRS. SEEBOHM (Jap. Ref.)—White; large full flower, slightly plumed when fully expanded, free bloomer; may he used with effect as a decorative plant. 4 to 5 ft. Terminal buds. 2s.

MRS. SMITH RYLANDS (Inc. Jap.)—Magnificent golden-yellow of splendid form, size, and substance, richest shade of gold yet produced; good habit and constitution. Crown or terminal buds. 2s.

MRS. W. J. GODFREY—Said to be the largest, purest, and most magnificent white np-to-date; the hlooms have a beautiful feathery appearance; good sturdy hahit. 2s. 6d.

MUTUAL FRIEND—One of the finest varieties; of immense size, of glistening whiteness, lower florets sometimes slightly shaded rose; capital habit. 2s. 6d.

M. VILMORIN (Jap. Dec.)—Deep golden yellow of large size, with long narrow florets; style of Avalanche, but the florets are longer; a decided acquisition. Crowu buds. 1s. 6d.

NELLIE ELVERSON—The flower is of immense size, very full florets of great substance; form incurving, a most imposing bloom. Received 25 dol. premium at Indianapolis as best bronze; also for first year seedling. 2s.

OWEN'S CRIMSON (Inc.)—One of the brightest crimson incurved Chinese Chrysanthemums in cultivation, the florets are broad and of a brilliant dark crimson, the blooms measuring 5 inches in diameter; good habit and constitution, a notable addition to this class. Crown buds. Awarded First-Class Certificates by N.C.S. and R.H.S. 2s. 6d.

OWEN'S PERFECTION (Jap. Anem.)—A grand flower; large bright lilac guard florers with a large raised centre of lilac, tinged slightly with gold. Awarded First-Class Certificates by N.C.S. and R.H.S. Crown or terminal buds. 1s. 6d.

OWEN THOMAS (Inc. Jap.)—One of the best yellows to date, with incurving florets of great substance, something in the way of Stanstead White, but more incurved; the blooms measure 8 inches in diameter; rather late, a grand exhibition flower. 4 to 5 ft. Crown huds. Two First-Class Certificates. 2s. 6d.

QUEEN OF BUFFS (Jap.)—Salmon-buff, a distinct shade of colour; flower of great depth and substance. 4 to 5 ft. Crown or terminal buds. F.C.C., N.C.S. 2s.

PALLANZA (Jap.)—Of great refinement, and of the purest and richest golden yellow; strikingly handsome; a fine acquisition. 2s.

PHILADELPHIA—Ineurved formed flowers, delicate cream, tips shaded deeper. Awarded a Silver-Gilt Medal by the N.C.S., 1895. 1s. 6d.

PHŒBUS-Blooms large, deep, and of perfect form; clear yellow. First-Class Certificate  $2s.\ 6d.$ 

PURITY (Single)—The purest white of any known variety: for cut flower is simply grand. Award of Merit.

**RADIANCE**—Fine colour of Golden Wedding; is full and deep, and of fine size; height,  $3\frac{1}{2}$  ft.; broad incurving petals. 2s.

SAMUEL BARLOW—Early-flowering variety; bright salmon-pluk; charming and useful. 9d. each.

SURPRISE (Jap. Anem.)—Very large flower, forked and hooked guard petals, bigb centre of pink florets; distinct from all other anemone flowered varieties. 4 to 5 ft. Terminal buds. 3s. 6d.

THE BRIDE (Jap. Dec.)—A splendid pure white incurved, free-flowering; excellent for cutting purposes, and can be recommended as a market variety. 1s. 6d.

THE EGYPTIAN—Grand exhibition flower of immense size; colour dark velvety red, very rich and pure, incurving in form; can never show a centre; height, 4 ft. 2s.

THE WORLD (Jap.) - Long spiral formed flower; white, tipped green. 2s.

THOMAS DAVISON (Jap.)—Large without being coarse; a bi-colour of rich crimson and gold, some florets being wholly golden, others crimson; strong and vigorous. 2s.

VICE-PRESIDENT BONTRIEUX (Jap.)—Long tesselated florets; rosy-lilae. 1s. 6d.

VIOLETTA (Jap.)—Soft rosy-violet; most attractive; very distinct. 1s.

VIOLETTE DEMANDRE (Jap.)—Good broad florets; will make a grand flower; a beautiful soft rose colour. 2s.

WAVERLEY (Jap. Dec.)—Seedling from Avalanche; milky white, shaded lemon at base, lemon eentre when opening, which is completely covered when fully expanded; the florets curling round, forming a complete ball. Crown buds. 1s. 6d.

WILLIAM FYFE-Large, full, deep, well-formed (somewhat after that of Belle Paule); eolour white, deeply shaded rose-purple; the florets are narrow drooping. 2s. 6d.

WILLIAM TUNNINGTON (Inc.)—A massive incurved bloom of a reddish-ehestnut colour, with golden-bronze tips. The florets are broad and blunt at the tip, very regular and compact. Rather weak grower, two blooms on a plant being sufficient if required for exhibition. Terminal buds only. 4 to 5 ft. Awarded First-Class Certificate by N.C.S. 2s. 6d.

YELLOW SOURCE D'OR—A true sport from the well-known and extensively grown market variety, Source d'Or, admired wherever exhibited, and awarded First-Clars Certificates and Awards of Merit. Of a clear rich yellow, prettily-shaped Japanese flowers, wonderfully free flowering; an iudispensable variety for decoration, and, where a quantity of yellow blooms are required early, very effective. Plants, 9d.; cuttings, 6d.

M. J. MacDonald, The Gardens, Clanna, Lydney, Glos., 18th November, 1895. "You will be pleased to hear the selection of Chrysantbemums you made and sent last year, enabled me to win the Challenge Vase at Bristol. I therefore have great pleasure in sending you a similar order to assist me another year."

# NEW VARIETIES FROM THE CONTINENT AND AMERICA THAT HAVE BEEN WELL TRIED.

AMIRAL AVELLAN—(Jap. Ref.)—Bright dark yellow, broad petals. First-Class Certificate, N.C.S. 3s. 6d.

BAYARD (Jap.)-Rosy white, tipped green. 1s. 6a.

BOULE D'OR (Jap. lnc.)—Broad incurving petals, straw, yellow, and red; dwarf. First-Class Certificate, N.C.S. Plants, 5s.; cuttings, 3s. 6d.

CHAMECHAUDE (Inc.)—Dark Carmine, amaranth reverse, silvery white; late. 1s. 6d.

C. HARMAN PAYNE (Jap.)—Enormous flowers, long drooping petals, purple, spotted white. First-Class Certificate, N.C.S. 3s. 6d.

CHRYSANTHÉMISTE 1 D'EVÈRE (Jap.)—Amaranth-purple, silvery reverse, tipped gold. 3s. 6d

DIRECTEUR TISSERAND (Jap.)—Ochre-yellow, centre crimson, striped yellow. First-Class Certificate, N.C.S. Plants, 3s. 6d.; cuttings, 2s. 6d.

E. ROSETTE (Jap.)-Bright yellow. 2s.

NYANZA-Deep crimson; a fine incurved Japanese for exhibition. 2s. 6.1.

OLYMPUS-White, shaled pink; large. 2s.

TRILBY-Clear white. 2s.

ZULINDA-Clear rosy pink. 2s

# BOUTONNIÈRE, ÆSTHETIC, AND SPIDERY CHRYSANTHEMUMS.

Where refinement in decorations are desired these will now take the place of the Pompon aud single-flowered varieties, and will undoubtedly occupy a position in Chrysanthemums similar to the Cactus-shaped kinds in Dahlias, which have gained such well-merited popularity throughout the world. It is our full conviction that these light, graceful, and yet fantastic shaped Chrysanthemums will attain a prominent position in even a much shorter time, and owing to their lasting properties when cut, which is a great advantage, they will be eagerly sought after and used by every lady who admires something neat and nice for the decoration of the table. For buttonholes and sprays they are even a worthy rival to the Orchid, both in appearance and keeping qualities; no garden or greenhouse ought to he without them. See opinions of the gardening papers and the Press.

MRS. FILKINS-Of Japanese form, medium-sized flowers prettily cut and notched; very free flowering; a hright golden yellow. Award of Merit, R.H.S. 1s.

SOUV. DE MME. G. EYNARD (Dec. Jap.)—A most wonderful arrangement of colours, reddish chestuut tipped golden yellow, tip of each petal is twisted; very attractive and novel. 1s.

THE STANDARD, 6th November, 1895.

Messrs. II. Cannell & Sons, Swanley, whose Kentish White (new), yellow Source d'Or, and magnificent collection of Geraniums, are of the very finest quality.

SILK TWIST-Of a rosy mauve and cream shade, full double flowers; pretty. 1s. 6d

ALICE CARTER—Colour reddish brown, tipped with gold; distinct and novel.

CENTAUREA—Deep orange yellow; very distinct. 1s. 6d.

MRS. JAS. CARTER—Colour pale yellow, passing to white. 6d.

BOUQUETERRE-White, tipped with yellow and rose. 9d.

CHEVEUX D'OR-Rich golden yellow. 9d.

JITSUJETUI-Silvery pink; very pretty. 1s.

KING OF PLUMES-Rich deep yellow, prettily cut and notched. Award of Merit, R.H.S 1s.

WHITE ELKSHORN-Pure white, extra. 9d.

## NEW VARIETIES OF OUR OWN RAISING OF 1894.

LONGFELLOW (Reflexed Pom.)—Early; a lovely ivory white, flowers more freely than any other variety we have in the earlies, flowering from end of June till October; very dwarf. 1s.

THE DON (Early Jap.)—Seedling from Gaston Chandon de Brialles; colour lilac; most profuse, flowering from July till frost in horder; dwarf. 1s.

## → \*\* SIMPLY AN ANNOUNCEMENT. \*

We are on the best of husiness relationship and have special terms with all Trade-growers Our orders for new varieties are already given for large quantities, so that we may have the first early plants, and thus enable us to despatch with our own all new kinds of other raisers in one package; and we further respectfully intimate to all those who wish their orders to be seut in first-class condition, that they should forward their commands as soon as possible after receipt of this New List.

#### GARDENER'S CHRONICLE, 17th November, 1894.

Kentish White will give mach disappointment if it fails to make one of the freest and best of the white Incurved Japanese.

#### Extract from THE GARDENER'S MAGAZINE, November 24th, 1894.

SPIDERY CHRYSANTHEMUMS.—At the Meeting of the Royal Horticultural Society on the 13th inst., Messrs. II. Caunell & Sons submitted three Chrysauthemums which by reason of their distinct character and elegant appearance attracted much attention, and were regarded with considerable favour by the Royal Committee. The three varieties are most useful additions to the type with spidery blooms of which J. Carter was the forerunner, and, like that variety, of considerable value for button-holes, hand bouquets, and decorative purposes generally that require small light flowers.

## NEW CHRYSANTHEMUMS.

each raiser sees wonderful things in his own, so they are thrust on to the public. From long experience, seedliags waat carefully sclecting with practical knowledge, and even then should he well grown and shown the next year, there may he many little nasty habits to prevent it ever becoming popular. We have increased our department, built the grandest and hest adapted house, 160 feet long by 25 feet wide, and appropriated nearly an additional acre of groand to grow old stools that we had cut down early before flowering, which we have now taken up with large balls of earth, and are giving us valuable, early, and first-rate cuttings that give more than satisfaction. We only intend to purchase from the principal growers, who have a knowledge of what is wanted, and of others that can be relied apon. Seedliags are raised as readily as Zonal Pelargoniums, and the world can he swamped with many that are not nearly so good as our older kinds. When good ones are obtained, they ought to command double what they have hitherto done to make them worth ventaring large sums of money. Even some of those that have been cultivated by the greatest experts, ia our opinion, will not he heard of again. We only intend to introduce those that will become standiag varieties, like those we have hitherto put in commerce, giving us a great reputation for the best varieties sent out by any firm.

## CHRYSANTHEMUM

We have adopted quite a new system for the supply of cuttings, which we are sure will be much more satisfactory to the purchasers, and far more successful than those supplied in the usual way from plants which have stood close together with their long drawn-up cuttings, and

often from those not very healthy, whose colours have been strained to the utmost.

We now plant out our stock of young plants first week ia May in the open ground, and cut them down the end of September, then lift them with large balls of earth and plant them in our earth-stage, close against the glass. They soon begin to throw up quantities of cuttings of a short sturdy nature, quite different to those from exhibition plants, and the difference is such that all growers who have seen our two houses, 100 ft. each, full of these roots, would decide never to grow from the over-worked old stools again.

## LARGE-FLOWERING INCURVED VARIETIES.

FOR OUT BLOOMS.

Those varieties marked with a (\*) are those that have been exhibited, and were amongst the winning classes at the principal shows throughout England. All those with a (†) are the best for exhibition specimen plants. (a) Raised and sent out by H. C. & Sons.

ABBOTT'S WHITE - Pure white; a great acquisition; sure to become a general favourite.

- 328.\* + MARIE STUART-Lilac hlnsh, high sulphur centre; fine.
- 329. \*MRS. WYNESS Rose-lilac, high centre; free
- 330.\* †MISS NIGHTINGALE—Blush, snlphur centre; full and fine.
- 332.\*+MR. ASTIE-Golden yellow; dwarf, and of fine form.
- 335. \*PRESIDENT MOREL—Red; fine. 336. \*PERLE—Deep rose.

Amongst the many stands of flowers seen at Chrysanthemum exhibitions, none, in our opinion, surpass these for beauty of colour and chaste appearance. They should be exhibited with three sprigs or shoots, together with from 8 to 10 inches of stem and foliage As their flower stems are very weak and do not hold up their flowers well, they should be strengthened with wire.

POMPON ANEMONE-FLOWERED.

337. \*QUEEN OF ANEMONES - Deep

340. ROSE MARGUERITE—Bright rose; fine.

341. †REGULUS-Cinnamon; distinct.

All are flowered yearly on purpose to keep them true to name, Always a large quantity of Stock Plants ready for propagating or for growing into specimen and flowering plants.

## JAPANESE CHRYSANTHEMUMS.

SECRETS IN COMPETITION.

Although the Japanese do not require to be made as uniform as if they had been cast in one mould, like the incurved and recurved, yet they require similar arrangement, so that they each present a regnlar and pretty form, whatever their natural shape may be. Massiveness and great depth of flower is most appreciated; flat hollow centres and undecided colonrs should be avoided. No model can be set np in this section as the one required. Yet whatever style of twisting, enrling, or recurving best snits the variety, to assist that growth of the flower to develop itself, and when done, it must be such as the eye will cause the tongue to say, "That is pretty; I like that variety." It generally follows, what pleases the public pleases the judges, and that is the secret of success.

AMY CAREY-Rich clear light brown. AUTUMN TINTS - A desirable

variety of a true Japanese type; colour pale yellow, heavily splashed rcd; greatly admired; should be taken on crown bud.

454. \*ALICE SEWARD—Rose-purple; long broad florets; very attractive, and fairly large flower. Award of Merit.

901. YELLOW ETHEL, or NEW YEAR'S DAY (Edwards' variety)—Most valuable for cutting at the shortest and New Year's Days.

## EARLY-FLOWERING CHRYSANTHEMUMS.

ARLY flowering Chrysanthemnus are making rapid improvement; we now give them more attention and grow them better. Onr house, after the Carnations and Picotees were removed, and during Angust and September, was really a fine sight. It cannot be said we have nothing but Dahlias in the autumn, for these can be had in abundance; yes, for many continue throwing up flowers after the first lot are ent—so very different to the ordinary November kinds, and for bedding many of the varieties make a grand feature. Mr. Brown, the Superintendent, Hyde Park Gardens, writes us:—" Madame C. Desgrange has again made the most attractive bed in the Gardens this season, and these are fast becoming a most important section of this family, but like all Chrysanthemnums they require to be well grown, otherwise they will end in disappointment."

903. ALICE BUTCHER—A sport from the well-known variety Lyon, red, shaded orange. Awarded First-Class Certificate.

904. BLUSHING BRIDE — A beautiful hybrid, bright rose-lilac, fading off to a beautiful blush.

972. WHITE LADY—White, slightly tinged blush,

973. YELLOW PETITE MARIE—Habit and form identical with the well-known white variety; clear bright canary-yellow.

All those not priced, 6d. each.

#### COUNTRY GROWN PLANTS AND CUTTINGS.

The difference between our country grown plants and cuttings, and those grown and sold in or near London or other towns, is so manifest, that no comparison can be drawn. True, they like soot at their roots, but not to be covered with it, as they must be when grown in such a situation, and for the want of light are poor and drawn up; whereas ours are clean, strong, and healthy, and will root in half the time where firms select specially one class.

Chrysanthemums.—Our stock of both old and new varieties is the largest, most complete, and in the finest possible condition, grown expressly for amateurs and professionals to win. As a proof, we are proud to see by the New York Herald that plants supplied by ns have again carried off the American great prize, "Gold Medal."

## SINGLE CHRYSANTHEMUMS.

If we were to print haif the extracts from the various horticultural papers, and the letters from those to whom we have sent flowers, including some of the highest titled patrons in the land, they would fill many pages, therefore we are convinced the following will suffice to cause these most highly useful and easily grown flowers to he cultivated in every garden. They are little or no trouble to grow; produce more blooms, last longer in good condition, either cut or uncut, than the doubles. In persistency of petal the single Dahlias hear no comparison, neither do they for real beauty and use. Further, they have a nice perfume, and for all kinds of decoration will not only add a new charm, but fill our tables with hrightness and heauty up to and past Christmas.

1053. aADMIRAL SIR T. SYMONDS (Cannell)—Large deep yellow. Two First-Class Certificates.

1054. AMERICA—Opening hlush, shading off to white; large and fine.

1099. SOUV. DE LONDRES—Rich erimson, fine flower. First-Class Certificate.

1100. STAR OF HOLBORN—Exquisitely scented, bright golden yellow; invaluable for cutting

Cuttings of new varieties half price

## CHRYSANTHEMUM (MARGUERITES) PARIS DAISIES.

(Golden and Silver Stars.)

This class is really one of the most valuable for cut flowers; with only ordinary care they can be had in flower all the year. During the winter they are indispensable, and if afterwards planted out they make a splendid bed; if they have a fault at all, it is because they are too easily propagated. They were much admired by all visitors at the Paris Exhibition, and are extensively grown in the French parks as bedding plants. The fact of their never ceasing flowering makes them household flowers everywhere.

1102. ALICE CROUSSE—Dwarf and very free; one of the best.

1103. BRANCHING ETOILE D'OR—Bright yellow, habit and free blooming is all that can be desired. It is, in our opinion, the most serviceable plant sent out for many years.

1104. ALMA BRUGGEMANN—Flowers single, beautiful clear golden yellow; edged white.

1105. COMTE DE CHAMBORD—Yellow. 9d.

1106. CORONARIUM FRUTESCENS—White; splendid bedder.

1107. CORONARIUM GRANDIFLORUM—Blooms all the winter.

1108. ÉTOILE D'OR—Yellow; blooms nine months in a year. 1s.

1109 HALLERI MAXIMA-White; very free, one of the finest.

1110. MADAME FARFÆILLON.

1111. MAXIMUM — Pure white, yellow eentre; fine for cutting. 6d. each; 4s. per doz

1112. MINIATUM- White.

1113. PINNATIFIDA—Beantiful foliage

1114. SPECIOSUM (Leucanthemum)—Supposed to be the original variety.

1115. ULIGINOSUM (Pyrethrum)— White, large yellow centre, blooms in September; a valuable hardy species, splendid for out flowers

6d each; flowering plauts, 1s. each.

THE FIRST CHRYSANTHEMUM SHOW IN ENGLAND was held at Norwich in the year 1830, and the names of the varieties exhibited were:—Tasselled Yellow, Clustered Pink, Yellow Cluster, Silver White, Yellow Flame, Early Blush, Changeable Pale Buff, Large Lilac, and Golden Yellow. How happy nurserymen and gardeners must have been in those days, with so few and such easy names!

#### NEW SINGLE FLOWERED ANNUAL CHRYSANTHEMUMS.

These novelties were obtained by crossing C coronarium on to C carinatum, and will prove a valuable addition to this class, and also very useful for cutting and decorative purposes.

\*CHIEFTAIN—Large, bright yellow, dark disc; fine.

#### Extract from the "Brltish Gardening."

"It is not generally known that Mr. H. Cannell, of Swanley, proposed that the 'National Chrysanthemum Society' should assume that title. The Society, as reported a week or two ago in this journal, was originally a local organization, but Mr. Cannell, with his characteristic farsightedness, saw a future before it if it would but adopt the title of the National Chrysanthemum Society. The then president sconted the idea and vigorously opposed it. Eventually, however, it was adopted, with the results already known—namely, that it has grown into a powerful institution with a very wide reputation."

H. Cannell, Senr., would be glad to propose those sending 5s. as Members of the above Society,

# AWARDED HIGHEST RECOMMENDATIONS BY THE R.H.S. AND N.C.S. OF ANY TUBES YET EXHIBITED.

PROVISIONALLY PROTECTED No. 7141, 1894.

# For Exhibiting Chrysanthemums and other Flowers.

The Cup has one Brass Side Spring which enables the exhibitor to adjust his flower with speed and accuracy in the tube or Water Container. It also has a very simple arrangement to prevent the necessity of plugging. X The Tube or Water Container has also one Brass Side Spring which passes through a Flange fixed to the Showboard from the under side.

By using these Tubes the exhibitor can raise his flowers seven inches from the board, with instant adjustment.

### ITS ADVANTAGES ARE—

Simplicity, Ease of Adjustment, Durability, Efficiency, and Great Saving of Time.
